The Oklahoma State University Library Electronic Publishing Center is committed to expanding and enhancing access to published and unpublished materials of potential interest to the academic community and general public, especially those unique to OSU or the State of Oklahoma.

In furtherance of our mission, we are pleased to offer digitization and consulting services to the faculty and university community of Oklahoma State University.

Our completed digitization projects include the seven volumes of Charles Kappler's *Indian Affairs: Laws & Treaties*, the Speeches of Boone Pickens, the full text of the first twenty volumes of the *Chronicles of Oklahoma* and the *Proceedings* of the Oklahoma Academy of Science from 1976 to the present, plus the tables of contents for the full run of both journals, and the OSU Catalog from 1980 to the present.

Currently, we are providing assistance and support to students of the Graduate College in preparing their theses and dissertations for electronic submission.

If you have materials you would like to make available online, or if you are working on a project that may include a digital component, please contact us. There is no charge for the initial consultation, and our fees are very reasonable.

The services we can provide include:

- Scanning (text and images)
- Conversion of page images to machine readable text (OCR)
- Preparation of searchable PDFs
- XML markup
- XML templates
- XSL style sheets
- Consultation on project design
- Consultation on digital aspects and technological requirements for grant writing
- Consultation on standards for file formats
- Consultation on metadata
- Preservation planning
- Electronic publishing of journals
